## Big goals require strong partners

**Every vision is unique: As individual as the person who envisions it – and as personal<sup>[SEP]</sup> as the goals that are derived from it. The more ambitious these goals are, the more important it is to be able to rely on a competent partner. This is especially true in industrial environments.**

### **A first-class solution with the right Solution Partner**

Do you want to increase your productivity by 60 per cent, while also improving quality?  
Do you want to almost double your product diversity with only one production line, or to increase your output by 150% after a minimal downtime.

No matter what goals you have: The Siemens Solution Partner program helps you to find the right partner for your specific task.

See for yourself

## **A reliable indicator for top quality**

Under the name of Siemens Solution Partners, selected system integrators around the world act as uniformly qualified solution providers for the Siemens range of products and services in the fields of automation and drives. The emblem of the Siemens Solution Partners stands for top quality – and it is thus a reliable indicator that your projects will be implemented successfully. There are now more than 1,200 certified Solution Partners in more than 60 countries implementing future-oriented and customized solutions.

The systematic promotion and improvement of the quality of our partners is a firm part of our unique program. Contractually agreed quality criteria for our partners and clearly defined processes for providing the best support to our partners play a central role. Thus it is guaranteed that our partners excel without exception due to their in-depth product and system expertise and their excellent knowledge of the industry.

Your benefit: With a Solution Partner, you benefit from future-proof and tailored solutions, which decisively contribute to the lasting improvement of your competitiveness.

# **Your success factor: the quality of our Solution Partners**

**The fact that you will always benefit from first-class results with our Solution Partners is not a matter of chance. Quality is a key cornerstone of our program. More precisely: It is the quality of the solutions, experts, projects, and products of our partners, which is consistently promoted using systematics that are uniquely designed for this purpose, with clear goals, concrete measures, and clearly defined services. All of this ensures that our partners produce excellent solutions, achieve lasting financial success, and constantly improve in the process.**

## Solution quality

Within the scope of our Solution Partner program, <sup>[L]</sup><sub>[SEP]</sub>our product and system expertise go hand in hand with the comprehensive application and industry expertise of our partners.

The advantages for you: <sup>[L]</sup><sub>[SEP]</sub>

- Custom-tailored solutions – for any requirement
- Minimization of risks <sup>[L]</sup><sub>[SEP]</sub>
- Perfect product and system selection

Our partners have to regularly demonstrate their solution quality. The numerous reference reports that we have compiled for you on the Internet are the visible documentation of their proven solution competence.

## Expert quality

The Solution Partners stand out for their up-to-date expert knowledge, which is certified in regular certification workshops and audits and which is built up and expanded within the scope of special, targeted training courses.

Offices Point Center, Sin El fil,  
Beirut, Lebanon  
P.O. Box Sin El Fil 55-021,  
Beirut Lebanon  
[www.automationmate.com](http://www.automationmate.com)

The advantages for you:

- First-class future-proof solutions – always state-of-the-art<sup>[SEP]</sup>
- Technically certified partners according to worldwide, uniform quality standards
- Up-to-date automation expertise thanks to intensive expert information exchanges

## Project quality

**The regular transfer of know-how between Siemens and the Solution Partners is the prerequisite for the quick and successful implementation of projects – in all industries.**

The advantages for you:<sup>[SEP]</sup>

- Valuable synergy effects from the close cooperation between Siemens and the Solution Partners – including on-site targeted application consulting and support – accelerate the successful conclusion of the project
- Expert support, including for complex topics and tasks, minimizes risks over the course of the project
- Maximum project reliability and quality thanks to feasibility studies done in advance

## Course Level: TIA WinCC–Basic–**TWCC100**

### 1- Who Should Attend?

- Commissioning Engineers
- Electrical Engineers
- Configuring Engineers
- Service Personnel
- Maintenance Personnel

### 2- Prerequisites

- Good PC skills are required, with a basic understanding of inverter principles and electronics knowledge would be beneficial but is not essential
- Knowledge of Electrical Drawing would be advantageous but be not essential

### 3- Aims and Objectives

On completion of the course the student will be able to:

#### **WinCC Flexible\_Getting Started First Time User**

- Creating a project
- Creating the screens
- Understand the recipes
- Adding screen changes
- Testing and simulating the project
- Testing and simulating
- Transferring the project (option)

## 4- Contents

- Product Overview
- Software Architecture
- Prosave Backup and Restore Functions

### Duration

One Day

## 5-Training center

ITEC-AUTOMATE operates a Proof of Concept Automation Center, Live Demo & Training Facility, all for the purpose of educating our engineers and clients on the latest industrial automation technologies.

Itec-automate teams are happy to share their knowledge.

We are offering different training courses in the following subjects:

- BECKHOFF embedded PLC and new automation design, using TWINCAT software.
- ETHERCAT, PROFINET and PROFIBUS training courses
- LAD, FBD, CFC, SFC and STL programming on different types of PLC's
- CAD solutions, using Engineering Base (EB) from AUCOTEC
- SIEMENS S7 200 training courses
- SIEMENS Step 7 - S7 300 and S7 400 Training courses
- SIEMENS WinCC flexible, for machine visualization solutions
- SIEMENS WinCC SCADA course
- DRIVES (VFD), to include SIEMENS and TOSHIBA drives courses
- Machine Safety courses, using PILZ products

Please send us a support request - [support@automationmate.com](mailto:support@automationmate.com) - ;  
stating what kind of training you would like to attend

	Price	Attendees	Price
TWCC100	500 \$	4	\$ 2,000.00*

**In order to open the class a minimum of 4 students is required**

\*Excluding VAT.
